MaecenasDevs | <https://github.com/jakelauterstein/Maecenas-Devs> | <https://gentle-citadel-11319.herokuapp.com/>

- Subscription-based full-stack blog site focusing on education and networking
- Designed and implemented full pages highlighting application utility and encrypted authentication
- Utilized React, CSS, Bootstrap, Javascript, MongoDB, and Adobe Creative Suite

Books of Alexandria | <https://github.com/jakelauterstein/books-of-alexandria> | <https://cryptic-taiga-66100.herokuapp.com/>

- Full Stack Ecommerce Application focusing on frontend product implementation
- Designed site branding and full pages highlighting product display and encrypted authentication
- Utilized Handlebars.js, CSS, Bootstrap, Javascript, SQL, and Adobe Creative Suite

EXPERIENCE

Front-End Web Development Intern (March '22 - present)

White Hat Agency, Austin, TX

Designed and implemented pages exhibiting interactive visual display, providing information about current home availability and services provided.

Key Accomplishments:

- Integrated more than 100 components to full page designs for a large-scale live website, exceeding expected deadlines.
- Implemented responsive design and A/B testing for deployed email campaigns with over 2000 recipients, exceeding expected deadlines.

EDUCATION

Program Certificate: University of Texas at Austin Full Stack Coding Bootcamp [Graduated July '22]

24-week intensive certificate program focused on gaining front-end and back-end skills in web development technologies.

Degree Program: The University of Oregon, Eugene, OR [Graduated June '13]

Earned Bachelor of Arts degree in Humanities with an interdisciplinary focus on audio technology and education.
